Silver Spring, MD 20904

Subject: Labeling Notification per Pesticide Registration Notice (PRN) 98-10 – to Add Recycling Graphic and Recycling Statement
Product Name: Counter Assault Bear Deterrent
EPA Registration Number: 55541-2
Application Date: September 13, 2018
OPP Decision Number: 544309

Dear Ms. Griffin:

The U.S. Environmental Protection Agency (EPA) is in receipt of your application for notification under Pesticide Registration Notice (PRN) 98-10 for the above referenced product. The Biopesticides and Pollution Prevention Division (BPPD) has conducted a review of this request for its applicability under PRN 98-10 and finds that the action requested falls within the scope of PRN 98-10.

The labeling submitted with this application has been stamped “Notification” and will be placed in our records. You must submit one (1) copy of the final printed labeling with the modifications.

Should you wish to add/retain a reference to your company’s website on your label, then please be aware that the website becomes labeling under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA) and is subject to review by the EPA. If the website is false or misleading, the product will be considered to be misbranded and sale or distribution of the product is unlawful under FIFRA section 12(a)(1)(E). 40 CFR § 156.10(a)(5) lists examples of statements the EPA may consider false or misleading. In addition, regardless of whether a website is referenced on your product’s label, claims made on the website may not substantially differ from those claims approved through the registration process. Therefore, should the EPA find or if it is brought to our attention that a website contains false or misleading statements or claims substantially differing from the EPA-approved registration, the website will be referred to the EPA’s Office of Enforcement and Compliance Assurance.

Enclosure

The applicant has certified that no changes, other than those reported to the Agency have been made to the labeling. The Agency acknowledges this notification by letter dated:

10/11/2018

**PRECAUTIONARY STATEMENTS
Hazards to Humans and Domestic Animals**

DANGER:

May cause irreversible eye damage if sprayed in the eye at close range. Contact through touching or rubbing eyes may result in substantial but temporary eye injury. Strongly irritating to nose and skin. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID:

IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. Have product container with you when calling or going for treatment. For emergency medical treatment information call 1-800-535-5053.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor immediately for treatment advice.

PHYSICAL OR CHEMICAL HAZARDS:

Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE & DISPOSAL:

STORAGE: STORE IN A COOL DRY PLACE INACCESSIBLE TO CHILDREN AND PETS. Do not store in places where the temperature is above 120°F nor below 32°F. Do not store in hot vehicle or in direct sunlight.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE! Non-Refillable Container. Do not reuse or refill this container.

If empty: Press valve to release all pressure then place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions.

Disclaimer: To the extent allowable by law, Counter Assault shall not be liable for damage, injury, loss, direct or consequential including death arising out of the use of, or inability to use this product.

**COUNTER ASSAULT
BEAR DETERRENT**

"GRIZZLY TOUGH"™ BEAR SPRAY

NOT FOR USE ON HUMANS TO DETER BEARS FROM ATTACKING HUMANS

CHEMICAL EMERGENCY: 1-800-535-5053

NET CONTENTS: 8.1 ounces (230g)

EPA Registration #55541-2

EPA Est No: 055541-MT-001

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or feed materials which may have become contaminated with this product.

This product has a range of up to 40 feet (12 meters) [290 g size] and up to 32 feet (10 meters) [230 g size]

This canister empties in approximately 8 seconds [290 g size] and in approximately 7 seconds [230 g size]

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this container, make sure the wind is at your back and depress actuator before, you should obtain a Counter Assault training can and practice with it until you can perform these activities quickly and accurately.

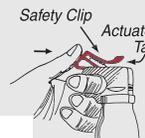

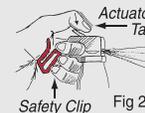

To Arm and Apply

Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig1).

Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

To Disarm

Replace safety clip by pushing firmly with thumb until audible "snap" is heard. Check to see if safety is completely in place with curl up. No gap should be visible between actuator handle and safety clip (fig 3).

**32 Feet
7 Seconds**
(see below)

Produced by a Grizzly Bear Encounter Survivor

In the early 1980's, bear biologists were researching effective bear deterrents. The result of this research was the development of an atomized spray and led to the creation of Counter Assault.

Pride Johnson, President & Chemist of Counter Assault successfully survived a grizzly encounter with Counter Assault Bear Deterrent. The encounter was immediately stopped.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or feed materials which may have become contaminated with this product.

This product has a range of up to 32 feet (10 meters). This canister empties in approximately 7 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this container, make sure the wind is at your back and depress actuator tab for no more than half a second. Do not test-fire in area inhabited by bears. If test-fired, clean nozzle and can with soap and water to remove residue from can. If you have not used this product before, you should obtain a Counter Assault training can and practice with it until you can perform these activities quickly and accurately.

To Arm and Apply: Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig 1). Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

To Disarm: Replace safety clip by pushing firmly with thumb until audible "snap" is heard. Check to see if safety is completely in place with curl up. No gap should be visible between actuator handle and safety clip (fig 3).

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

DANGER: May cause irreversible eye damage if sprayed in the eye at close range. Contact through touching or rubbing eyes may result in substantial but temporary eye injury. Produced by a Grizzly Bear Encounter Survivor

In the early 1980's, bear biologists were researching effective bear deterrents. The result of this research was the development of an atomized spray and led to the creation of Counter Assault.

Pride Johnson, President & Chemist of Counter Assault successfully survived a grizzly encounter with Counter Assault Bear Deterrent. The encounter was immediately stopped.

INERT TRAINING CAN

DIRECTIONS FOR USE:

This product is NOT to be used as a bear deterrent.

The canister empties in approximately 7 seconds and sprays approximately 20-25 feet.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking bear spray into bear country, read the directions below and familiarize yourself with these procedures. Contents include food grade oils which may attract bears if used in a camping area. Practice prior to entering bear country.

This is a training can and you should practice with it until you can perform the described activities quickly and accurately.

TO ARM AND APPLY: Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb placed over the curl, pull safety clip straight back and off (fig 1). Depress actuator tab for burst of spray (fig 2). Pretend to aim at face and eyes of a bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the pretend bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

TO DISARM: Replace safety clip by pushing firmly with thumb until audible "snap" is heard. Check to see if safety is completely in place with curl up. No gap should be visible between actuator handle and safety clip (fig 3).

BEAR SPRAY CAN

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or feed materials which may have become contaminated with this product.

**This product has a range of up to 32 feet (10 meters).

Produced by a Grizzly Bear Encounter Survivor

In the early 1980's, bear biologists were researching effective bear deterrents. The result of this research was the development of an atomized spray and led to the creation of Counter Assault.

Pride Johnson, President & Chemist of Counter Assault successfully survived a grizzly encounter with Counter Assault Bear Deterrent. The encounter was immediately stopped.

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

USE RESTRICTIONS: This product may be used only to deter bears which are attacking or appear likely to attack humans. Do not spray this product on objects, tents, or humans; such use has no deterrent effect on bears. Do not seek out encounters with bears or intentionally provoke them. Keep safety clip in place except when practicing with or using the product. Do not eat or allow to be eaten any food or feed materials which may have become contaminated with this product.

This product has a range of up to 40 feet (12 meters). This canister empties in approximately 8 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking this product into bear country, read the directions below and familiarize yourself with these procedures. If you test-fire this container, make sure the wind is at your back and depress actuator tab for no more than half a second. Do not test-fire in area inhabited by bears. If test-fired, clean nozzle and can with soap and water to remove residue from can. If you have not used this product before, you should obtain a Counter Assault training can and practice with it until you can perform these activities quickly and accurately.

To Arm and Apply: Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig 1). Depress actuator tab for burst of spray (fig 2). Aim at face and eyes of bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

To Disarm: Replace safety clip by pushing firmly with thumb until audible "snap" is heard. Check to see if safety is completely in place with curl up. No gap should be visible between actuator handle and safety clip (fig 3).

PRECAUTIONARY STATEMENTS: Hazards to Humans and Domestic Animals

DANGER: May cause irreversible eye damage if sprayed in the eye at close range. Contact through touching or rubbing eyes may result in substantial but temporary eye injury. Strongly irritating to nose and skin. Do not get in eyes, on skin, or on clothing. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before reuse.

FIRST AID: IF IN EYES: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses after the first 5 minutes, then continue rinsing eye. Call poison control center or doctor for treatment advice. Have product container with you when calling or going for treatment. For emergency medical treatment information call 1-800-535-5053.

IF ON SKIN OR CLOTHING: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call poison control center or doctor immediately for treatment advice.

PHYSICAL OR CHEMICAL HAZARDS: Extremely flammable. Contents under pressure. Keep away from fire, sparks and heated surfaces. Do not puncture or incinerate container. Exposure to temperatures above 130°F may cause bursting.

STORAGE: STORE IN A COOL DRY PLACE INACCESSIBLE TO CHILDREN AND PETS. Do not store in places where the temperature is above 120°F nor below 32°F. Do not store in hot vehicle or in direct sunlight.

DISPOSAL: DO NOT PUNCTURE OR INCINERATE! Non-Refillable Container. Do not reuse or refill this container. If empty: Press valve to release all pressure then place in trash or offer for recycling if available. If partly filled: Call your local solid waste agency for disposal instructions.

Disclaimer: To the extent allowable by law, Counter Assault shall not be liable for damage, injury, loss, direct or consequential including death arising out of the use of, or inability to use this product.

INERT TRAINER

DIRECTIONS FOR USE:

THIS PRODUCT IS NOT TO BE USED AS A BEAR DETERRENT.
Inert training canister sprays 20-25 feet for approx. 7 seconds.

APPLICATION DIRECTIONS: Special procedures must be followed to arm the container, apply the product and restore the safety clip to disarm the container. Before taking bear spray into bear country, read the directions below and familiarize yourself with these procedures. Contents include food grade oils which may attract bears if used in a camping area. Practice prior to entering bear country.

This is a training can and you should practice with it until you can perform these activities quickly and accurately.

To Arm and Apply

Designed for one-hand operation. Place forefinger through hole in handle with thumb on safety clip curl. With thumb, pull safety clip straight back and off (fig 1).

Depress actuator tab for burst of spray (fig 2).

Pretend to aim at face and eyes of a bear. Depress actuator tab for 1-2 seconds in order to create a barrier of spray between you and the pretend bear. Stop to evaluate the impact of wind and other factors and adjust your aim if needed before spraying again.

To Disarm Replace safety clip by pushing firmly with thumb until audible "snap" is heard. Check to see if safety is completely in place with curl up. No gap should be visible between actuator handle and safety clip (fig3).
